NOTE

Each letter of Nina Barbaresi's colorable alphabet is surrounded by up to eight drawings of people, animals and objects for you to identify, all of whose names begin with that letter. As you color, you'll notice that each object is numbered. Look at the bottom of the page: after each corresponding number is a place for you to spell the name of the numbered object. Can you?

Blank spaces are provided for each letter, so you can see how many there are in each name. The first letter is always the big one in the middle of the page you're coloring. So we've filled in the first letter of each word for you, and we have even filled in some of the others, to help you begin.

With the head start we've given you, do your best to spell each word correctly; then check your answer with the solutions at the back of the book. And have fun coloring the big alphabet and the cheerful pictures!

Spelling Fun

Nina Barbaresi

Learning to spell can be lots of fun! This A-to-Z book contains many exciting pictures for you to color, and while you're coloring, you'll learn how to spell dozens of words.

Each page presents one letter of the alphabet, with as many as eight delightful depictions of people, animals, and objects beginning with that letter. ("A" for example, features an apple, airplane, apron, ant, anchor, acorn, arrow, and alligator.) You can fill in the blanks at the bottom of the page to spell out the name of each object. Some letters have already been filled in to give you a head start.

Parents, teachers, and children alike will enjoy this inexpensive coloring book. It's a great way to help kids learn to read and write.
